

Inset is a new shorthand property for setting
 top
 right
 bottom
 left
 at same time.

It follows same

multi-value system as other properties. Margin padding etc.

Eg:

.item { top: 10px; bottom: 10px; right: 10px; left: 10px; }

```

.item {
  top: 10px;
  right: 10px;
  bottom: 10px;
  left: 10px;
}
      
```

```

.item {
  inset: 10px 10px 10px 10px;
}
      
```
