

159 * Navigation Bar

1) `list-style-type: none;` // Remove Bullets

// A Navigation bar does not need list markers.

2) Set `margin: 0;`
`padding: 0;`

// To remove browser default settings.

3) Vertical navbar

→ Block elements take up full width by default

eg reference Pg no 145

4) Horizontal Navbar

<!DOCTYPE html>
