```
Steps to connect Power BI
--------------------------
1. URL :
https://www.microsoft.com/en-us/power-platform/products/power-bi/downloads

2. Go to Microsoft Power BI desktop section

3. Click download

4. Click Get data from other sources

5. On Home -> Get Data -> Click More -> Click Database -> MYSQL database

6. Check if you have the connector

7. If yes proceed with below steps

   In MySQL Workbench -> Right Click -> Copy Connection string to clipboard

   Enter Server : root@127.0.0.1:3306 -> remove root@ -> 127.0.0.1:3306

   Enter Database : classicmodels

8. From here, it may ask your login credentials.

9. Click on the View

10. Load the data -> By clicking on the load button.

11. Page Information -> Name -> Sales Overview

    Canvas Setting    -> Type -> Custom

                         Height -> 900px
