```
Class Company Name {
    Constructor () { this. company Name = "Aegis"; }
    tryout () { console. log ("Method from Company Name
                                          class !!"); }
}
```

14
Tuesday

```
Class Employee extends CompanyName {
    Constructor (id, name) {
        Super();
        this.id = id;
        this.name = name;
    }}
    Var emp = new Employee (1, "John");
Console.log(emp.id +" " +emp.name +" " +emp.company
                                              Name);
    emp.tryouter();
```

O/p : 1 John Aegis
Method from CompanyName class
