c) JS Hoisting ∴ Concept not feature

a) Other language → Variable
ON
function } → declare → before using it.

→ Is → Variable
or
function } → used → before declaring it.

c) Only Possible → Declaration Not Intialization

Eg:
```
x = 1;
alert ("x =" +x);
var x;
```

declaration → Move on Top
All ↑ → move on Top
used before declare it.

Eg:
```
<script>
x = 78;
alert(x);
</script>
```

→

```
<script>
x = 70;
alert(x);
var x;
</script>
```
